February 2014

Does your wellness program have all of the pieces to the puzzle?

Healthsync is a fully integrated health management and wellness company. Differentiated by a proprietary healthcare analytics platform for medical and pharmacy data integration. Supported by an interactive employee portal housing a tailored health risk assessment (HRA), biometric (lab) data, personalized health coaching and individual medical and pharmacy data. Backed by a qualified clinical team. All of this provides employee's one robust platform to engage and manage their health.

4 Key Puzzle Pieces:

1. Health Risk Assessment
2. Biometric /Lab Data
3. Clinical Services/Health Coaching/Disease Management
4. Claims Data Integration

If your wellness program isn't connecting all of the pieces of the puzzle, contact Healthsync to learn more.
